As in our previous operations, this cyberattack was conducted in a controlled manner while **taking measures to limit potential damage to emergency services.**

We delivered warnings to emergency services across the country before the operation began, and ensured **a portion of the gas stations across the country were left unharmed** for the same reason, despite our access and capability to completely disrupt their operation.

Israel is moving right now, major weapon systems, to the northern border, we're basically getting ready for that war very soon.

We're on a path toward **direct confrontation with the United States**

### [Zephaniah 3:19](#)

**I will deal with all who afflict you;**

I will save the lame,

And gather those who were driven out;

I will appoint them for praise and fame

In every land where they were put to shame.
