

# New Account

Webmail interface:

<https://wilsons.life/citadel/>

Create a new account:

Click on **New user? Register now** :

The screenshot displays the Citadel webmail login page. At the top, a dark blue banner reads "You must be logged in to access this page." with a "Close window" button on the right. Below this, the main content area is titled "Log in using a user name and password". It contains two input fields: "User name:" and "Password:". Below these fields are two buttons: "Log in" and "New user? Register now". The "New user? Register now" button is highlighted with a yellow circle. On the left side, there is a vertical sidebar with several buttons, each with an icon and a label: "Citadel Server", "OpenID", "Google", "Yahoo", "AOL/AIM", and three empty buttons. The "New user? Register now" button is the one to click to create a new account.

New Email:

Enter a user name and password and click **New User**. Your email will be your user name, ending in **@wilsons.life**.

Non-alphanumeric characters (e.g. periods , ampersands , dashes ) will be displayed as underscores  in the Citadel interface. In actuality, non-alphanumeric characters are ignored by Citadel and you can receive email with any character used in that position (e.g. [G.R@wilsons.life](mailto:G.R@wilsons.life) is displayed as [g\\_r@wilsons.life](mailto:g_r@wilsons.life), but receives email sent to [g.r@wilsons.life](mailto:g.r@wilsons.life)).

Additionally, the administrator account can add "aliases" for emails, so if you would like to have additional emails names funnel into the same account, email the admin [giw@wilsons.life](mailto:giw@wilsons.life).

You must be logged in to access this page.
