

HOW TO BE A WATCHMAN DURING THE TRIBULATION

The general work and call of a Watchman are well defined in the material in this folder. We anticipate that during the Tribulation, a Watchman's calling will be similar to now, but with more focus on the following:

- **Evangelism via Service**

During the last days, there will be an urgent need and opportunity to reach people for Christ by meeting needs associated with the turmoil of the Tribulation. The disruption of services, earthquakes, and civil unrest will create profound opportunities to serve. Stock up on food, camping supplies such as sleeping bags, camp stoves, etc., water, flashlights, fuel, and medical supplies so that when opportunities present themselves, you can share the love and message of God as you share practical help.

The "The Grid Plan - A strategy for those living for God in the post-rapture world" eBook in this Rapture Kit resource has additional ideas and suggestions. You can locate that book in the \Section 04 – Books\ folder.

- **Small Group and Home Church Leader Development**

Watchmen will coordinate and support small group teaching and worship events, mentoring, training, and equipping other ministry leaders. There are many files in the Rapture Kit resource that have additional information on this subject. Of special note, check out this article: "Is God Calling You - Rapid Leader Development.PDF".

- **Prophecy Expert/Teacher/Evangelist**

The world will be hungry for truth, insight into why things are happening, and information on what to expect. God will use those with a working knowledge of Bible Prophecy to draw many to faith. The enemy will consider those leaders high-value targets. Beware, but shine bright the light of the Gospel in these dark last days.
